Why the Subscription Management Cloud?

Manage new subscriptions, renewals, and upgrades by connecting your customer relationship management and back-office and providing a complete view of customers' purchasing behavior. Built on machine learning (ML), Oracle Subscription Management is the only fully integrated, cloud-based subscription management system for product- and service-based companies that simplifies the management of contracts, billing, and revenue.

Kickstart for process innovation!

With the Kickstart offerings for the Oracle Applications Cloud, PROMATIS enables a smart entry into the use of application software services: fast, economical, low-risk. For a fixed price!

A pre-configured Oracle SaaS product suite with best practice business process models and proven PROMATIS implementation and training services.

Kickstart Subscription Management Cloud

PROMATIS Kickstart supports agile enterprises in the implementation of their new service-based business models. The solution convinces not only with its modern business processes, but also with its open architecture: via standardized interfaces, the system can be integrated securely and quickly even into heterogeneous application landscapes.

PROMATIS Best Practice Solution ERP

The PROMATIS Best Practice products are functional extensions for and adaptations of Oracle applications. The result is end-to-end, cross-company business processes that can be implemented economically and quickly in the company.

Oracle Applications Cloud ERP

The ERP software is the heart of all business processes in the company. Oracle's modern, networked cloud applications provide tools and capabilities to streamline business processes such as procurement, project management, and finance. These innovative solutions help increase productivity, reduce costs and increase controls.
